

Overview

Vista Virtual School (VVS) has the perfect solution for your online learning: on any platform, at any place, and at any time!

VVS' Learning Management System (LMS) is an enhanced version of Moodle—it's been carefully designed to look great, and it's easy to use and accessible from the VVS website.

You are fully supported in your online learning—teacher contact information is always just a click away in Moodle.

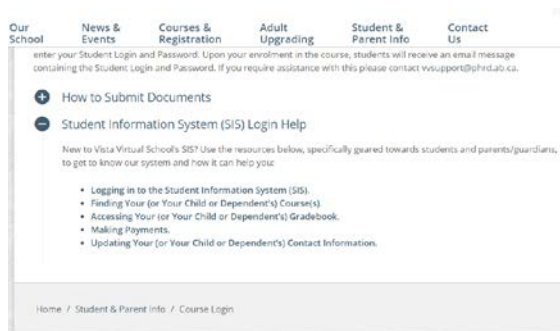

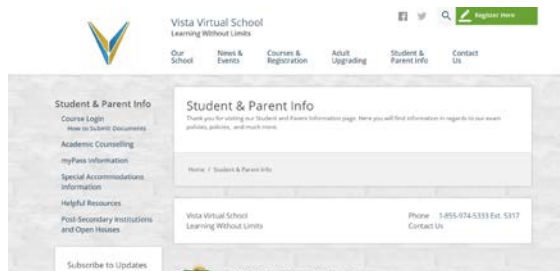

We've also designed a series of [PDF tutorials](#) to help you get the most out of your online learning experience. To access these, use the instructions provided in the following section.

Accessing Online Help

1. Navigate to <http://www.vvschool.ca/>.
2. You can choose to:
 - a) Read the reference material by clicking on the **Student Information System (SIS) Login Help**.

This is found under Student & Parent Info – Course Login.

2. And access SIS from the **Course Login** QuickLinks.

We encourage you to take a few minutes to go through all the material carefully, and we hope you enjoy using Vista Virtual School online resources!
