

This document is intended to assist Student Instruction (SI) students with understanding how to find their course in the ADLC Student Information System (SIS) and Moodle (Learning Management System-LMS).

Once logged into the [ADLC Student Information System \(SIS\)](#), there are two ways to find the course(s) students are enrolled in:

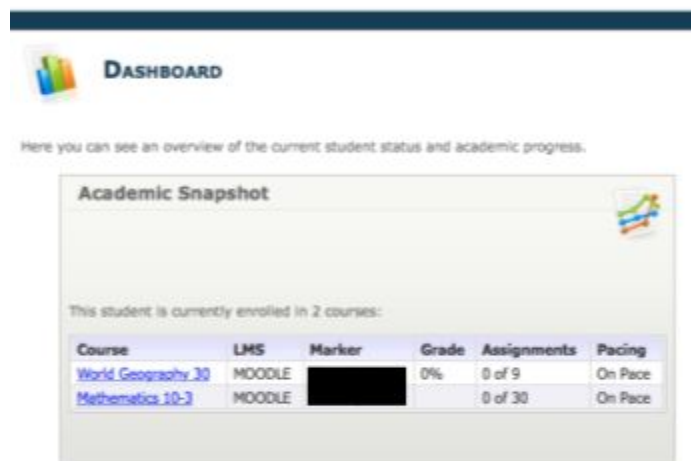

- Through the ADLC SIS Dashboard
- Through the Course Information Menu Option

### Finding Your Course Through the ADLC SIS Dashboard

1. In the menu on the left-side of the screen, select the **Dashboard** option.

2. In the **Academic Snapshot** section displayed on the screen, click on the appropriate link underneath the **Course** column to be taken to that course.

## To Find your Course through the Course Information Menu Option

1. From the main menu, select **Course Information**.

The screenshot shows the GENIUS dashboard for user Elizabeth Lam. The left sidebar contains a menu with options: Dashboard, Messages, Course Information (highlighted with a red box), Academic Snapshot, Suggested Pacing, Gradebook, Student Information, Make a payment, and Edit Account. The main content area is titled 'DASHBOARD' and contains several widgets: Academic Snapshot (showing enrollment in World Geography 30 and Mathematics 10-3), Upcoming Events, Activity, Messages, Course Requests, and Admission Status. The user's name 'Elizabeth Lam' is visible in the top right corner.

2. Click on the **Go to course** link beside the class you want to view. It will open up your course.

The screenshot shows the course information page for two courses: Mathematics 10-3 and World Geography 30. Each course card includes a 'Go to course' link, which is highlighted with a red box. The course cards also display teacher information, including name, email, phone, bio, and hours. The teacher's picture is marked as 'PICTURE NOT AVAILABLE'. The 'Upcoming Events' section for both courses indicates that there are no events scheduled for this section.

Here you can see information about courses and teachers.
