

Teacher Support (TS) partners using ADLC's online courseware may find value in some of the Marker Dashboard features.

Adding the Marker Dashboard

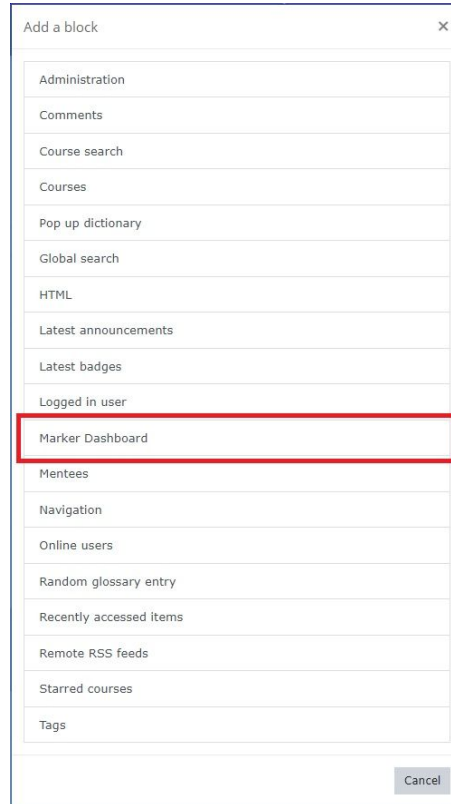

1. Log into Moodle (either directly through [Moodle](#) itself or through [ADLC's Student Information System](#) (SIS)).
2. Click the **Home**  icon.
3. Select the **Customise this page** button at the top right of the Moodle Dashboard.

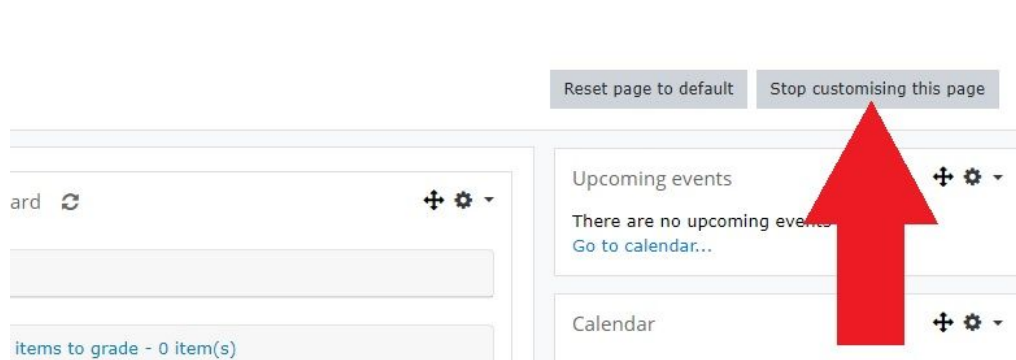

4. Select **Add a block** from the left side navigation area. If the left side navigation is not shown, click the grey hamburger icon in the upper left corner.

5. Select **Marker Dashboard** on the pop up screen

6. Using the arrows (+) at the top right of the tool to move the **Marker Dashboard** to the location of your choice.
7. Once you're satisfied with the layout, click the **Stop customising this page** button.

Using the Marker Dashboard

The Marker Dashboard shows all assignments that require grading and for which you're listed as a marker or teacher. The Marker Dashboard is available to lead teachers for TS courses.

The Marker Dashboard contains three different selections:

- *Students* - displays all students registered to you, regardless of course
- *Overdue items to Grade* - displays items that were submitted three or more days ago (to the hour)
- *Courses Activity* - displays all courses and any items in them that may require grading

Marker Dashboard Legend

The screenshot shows the Marker Dashboard for a user named Darth Vader. The interface includes a top navigation bar with a 'My Courses' dropdown (annotated with 'a'), a user profile section, and three main content areas: 'Students', 'Overdue items to grade', and 'Courses Activity'. The 'Students' section contains a table with columns for Name, Email, Genius ID, Institution, and Last access. A student named Luke Skywalker is listed. The 'Courses Activity' section shows a course titled 'Companion Animals [1 cr] - TS (2020)' with one assignment to grade for Luke Skywalker (annotated with 'd'). A refresh icon (annotated with 'b') is located above the 'Students' section, and a collapse/expand icon (annotated with 'c') is located to the left of the 'Students' section header.

1. Click the **Home** button () to come back to this dashboard.
2. Click to **Refresh** () content.
3. Click to **Expand** () or **Collapse** () a section.
4. Click the blue link icon () to go to the **Marking Page** for a student's assignment.

To Grade An Assignment

1. Click the *blue link icon* () next to the assignment you'd like to view. This link will take you directly to that student's assignment.
2. Grade the assignment or quiz as usual.

Note: Marked items are automatically removed from the Marker Dashboard (you may need to click the **Refresh** button to update the listing). Auto-graded items and forums don't appear on Marker Dashboard.
